PART D

ADDITIONAL QUALIFICATION DESIGNATION (AQD) CODES

1. General

   a. Additional Qualification Designation (AQD) codes enhance officer and billet designator codes by identifying more specifically the qualifications of officers and the qualifications required by a billet or awarded to the incumbent of a billet.

   b. The AQD structure:

     (1) identifies additional qualifications, skills and knowledge required to perform the duties and/or functions of a billet beyond those implicit in the billet designator, grade, NOBC, or subspecialty;

     (2) where specifically noted, identifies billets that provide unique qualifications for the billet incumbent; and

     (3) facilitates retrieval of management information required to support more precise officer personnel planning.

   c. The AQD codes consist of three characters, either alpha-numeric or all-numeric. The first character of an alpha-numeric code identifies a broad occupational area closely related to the designator. The second character specifies the qualifications appropriate to that occupational area with the third character further defining the specific qualifications. The all-numeric AQD codes are a listing of specific qualifications applicable to certain officer designators.

2. Application

   a. Officer AQD. When entered in an officer's record, the AQD code identifies the attainment of skills and knowledge, as recognized by competent authority, in addition to those identified by the officer designator, grade, NOBC or subspecialty.

   b. Billet AQD. When applied to a billet on a manpower authorization, the AQD code generally identifies a requirement for skills and knowledge needed to perform the duties and/or functions of a billet additional to those identified by the billet designator, grade, NOBC or subspecialty. The AQD generally indicates a requirement for an officer who has attained special qualifications through training and/or experience. However, where specifically indicated, the AQD identifies a unique qualification awarded to the incumbent through service in the coded billet.

3. Assignment

   a. Officer AQD. Cognizant Bureau of Naval Personnel assignment officers, in coordination with placement officers, are responsible for ensuring AQD codes are assigned to officers so the officers' records are reflective of all qualifications and skills achieved. In some cases, the codes are awarded only when approved by administrative board action. In specific cases, where the billet AQD represents a qualification attained by virtue of service in that billet, the AQD will be automatically awarded to the incumbent upon his/her detachment from the billet.

   b. Billet AQD. Cognizant sponsors in liaison with activities are responsible for identifying billets to be coded with selected AQDs. The Deputy Chief of Naval Operations (Manpower and Personnel) will act as final approving authority on all recommended coding actions and will be responsible for annotating approved coding in the officer billet file.

4. AQD Primary Consultants and Consultants are listed opposite the respective AQD codes in the following sections. The functions, tasks and responsibilities of the primary consultants and consultants are contained in OPNAVINST 1000.16 series.

5. <u>Justification for Establishment and Retention of AQDs</u>. For establishment and retention within the AQD structure, an AQD code should meet the following criteria:

   a. it must identify qualifications, skills and knowledge required to perform the duties and/or functions of a billet that cannot be identified by the billet designator, grade, NOBC or subspecialty; and/or

   b. it must identify qualifications, skills and knowledge attained by officers in addition to those identified by the officer designator, grade, NOBC or subspecialty.

   c. It does not duplicate an existing code.

   d. It has practical application in planning, personnel control, career management, training, experience, or manpower information functions.

   e. It should be appropriate for identification of additional qualifications required by the functions of the billet, both peacetime and mobilization, and/or additional qualifications of officers, both active and inactive.

   f. It identifies a minimum of 15 billets and/or officers.

6. <u>Recommendations for Establishing, Deleting, or Revising AQDs</u>

   a. Commands recommending the establishment, deletion, or revision of AQDs should consider the AQD criteria listed in paragraph 5. Additionally, all recommendations should include the appropriate information as follows:

       (1) Recommendations to <u>establish</u> AQDs must include:

          (a) Recommended code number, second and third character titles, and primary consultant and consultants for each code.

          (b) Description of officer and/or billet criteria indicating whether the officer must be coded with that AQD or will be awarded the code upon completion of tour in that billet. The description should also include special notes as appropriate.

          (c) List of designators that can hold the AQD code along with minimum and maximum paygrades applicable to officers and billets.

          (d) Funding implications.

          (e) Number and location of billets by activity type that will be identified by the proposed AQD.

          (f) Information on how the qualifications are presently identified.

          (g) Justification: a statement as to why existing billet descriptors (i.e., NOBC, grade, or subspecialty) are insufficient without the proposed AQD; other historical or amplifying information, if any.

          (h) Point of contact (include telephone (commercial and DSN) number, telefax number, and e-mail address).

       (2) Recommendations to <u>delete</u> AQDs must include the reason(s) for deletion (e.g., qualifications duplicated by existing designator, sufficiently identified by means other than AQD, or insufficient requirements reflected on manpower authorizations) and any other information necessary for prudent consideration at each level of review.

       (3) A proposal to <u>revise</u> an AQD must include justification for the proposed revision and the proposed rewording or recoding of the current AQD.

   b. Submit all recommendations according to the procedures outlined in the introduction of this volume.

ACQUISITION
First Character: A

AQD codes having the first character "A" are used to identify acquisition related billets and personnel required to be identified and managed by the Defense Acquisition Workforce Improvement Act of 1990 (DAWIA).

The second character identifies the position category (career field).

The third character "N" (non-critical) is assigned to billets up through paygrades 0-5; "C" (critical) is assigned to positions required to be filled by an 0-5 or senior grade officer; "D" requires ASN(RD&A)(DACM) approval; and "1, 2, or 3" are assigned to personnel fully qualified and certified for their position category and training level.

Acquisition Professional Community (APC) AQDs are assigned as a result of screening by the APC Selection Board.

Primary Consultant for AQD assignment is N1, and consultants are respective Officer Community Managers in N2.

PROFESSIONAL DEVELOPMENT (GENERAL)
First Characters: 1 & 2

   AQD codes having the first character "1" and "2" are used to reflect additional professional qualifications acquired through performance or training in the functional area (second character). Qualifications are additive to and are not inherent in an individual's designator, subspecialty or NOBC but require identification for tracking or other management purposes.

   The 11X numeric AQD codes are assigned to personnel by PERS-4 and CNET. The 2XX AQD codes are assigned to personnel by PERS-4. These codes are not assigned to billets.

LEGAL SERVICES
First Character: 4

AQD codes having the first character "4" are used to modify officer designators when the officer is a lawyer, bar admitted. The second and third characters are composed of the two-letter state abbreviation to identify the state of bar admission, except that the codes "4AJ" and "4MJ" identify those 250X designated officers who are certified as Appellate Judge and Military Judge by the Judge Advocate General.

The Legal Services AQD codes are assigned only to personnel. They are not assigned to billets and assignment to officers is made by PERS-4.
